

The College and Career Center is hosting several workshops and events in the next several weeks.

We have college rep visits, financial aid night, college fair, application workshops and more!

We have numerous college representatives coming to the college and career center to meet with our students. This is a great opportunity for our students to meet with representatives and ask questions about the individual campuses. There is a complete list of all of the college visits on Naviance and the calendar on the College and Career Center webpage.
