- **PTC Wish List Success Story:** “I teach Basic Consumer Math taught in the WHS Special Education Dept. I focus on everyday math needs of the students. PTC granted my wish for a cash register. In fact, you found me 2!! Now my students use real registers to practice giving change. In addition, Basic Business Math students use the cash registers for their class as they sell coffee to staff. Your donation has allowed us to provide mock and real world money management skills. My students no longer are intimidated by cashiering roles in entry level employment positions. Anytime we can get a 1:1 with learning materials, the greater student engagement is.” Kelly Krasner, Support Services Teacher
